

ACCEPTABLE USE POLICY

Great Creation Studios — Client Portal & Digital Services

This Acceptable Use Policy ("AUP") governs the use of the Great Creation Studios ("GCS") Client Portal, communication systems, file sharing services, and all related digital platforms. By accessing these services, you agree to comply with this policy.

1. Portal Access & Authentication

- a. Access credentials are issued to individual authorized users and must not be shared, transferred, or disclosed to unauthorized parties;
- b. Users must immediately report any suspected unauthorized access or security breach;
- c. Sessions automatically expire after the configured timeout period. Users should log out when leaving shared or public devices;
- d. GCS reserves the right to monitor login activity and may suspend accounts showing suspicious patterns.

2. Communication Guidelines

2.1 Messaging System

The integrated messaging system is provided for project-related communication between Clients and the GCS team. Acceptable use includes:

- Project feedback, questions, and status inquiries;
- File sharing related to active projects;
- Scheduling and coordination discussions;

- Revision requests and approval confirmations.

2.2 Prohibited Communication

The following are prohibited in all GCS communication channels:

- Harassing, threatening, discriminatory, or abusive language;
- Unsolicited commercial messages or spam;
- Distribution of malware, phishing links, or malicious content;
- Sharing content that violates intellectual property rights of third parties;
- Transmission of sensitive personal data (SSNs, financial account numbers) via the messaging system — use the secure file upload for such documents.

3. File Upload & Sharing

- Permitted file types:** Images (PNG, JPEG, GIF, SVG, WebP), Documents (PDF, TXT, MD), and multimedia files (MP4, MP3) relevant to project work;
- File size limits:** Standard uploads are limited to 20MB per file. Text files are limited to 1.4MB. Contact GCS for larger file transfers;
- Content restrictions:** Uploaded files must relate to the active project. Users must not upload malicious files, executable code, or content that violates applicable laws;
- Naming conventions:** File names are automatically sanitized. Special characters may be replaced with underscores.

4. Proof Review & Annotations

- The annotation system is provided for constructive design feedback. All annotations and comments are logged and

- visible to both parties;
- b. Annotations should be specific, actionable, and professional;
- c. Users may only modify or delete their own annotations. The annotation history is maintained as part of the project record;
- d. The "Clear All" function permanently removes all annotations and should be used with caution.

5. Data & Intellectual Property

- a. Materials uploaded to the portal remain the property of the uploading party, subject to the terms of the applicable project agreement;
- b. Clients must not download, copy, or redistribute GCS proprietary work-in-progress materials except as authorized in writing;
- c. Screenshots, recordings, or reproductions of the Client Portal interface or unpublished designs are not permitted without GCS consent;
- d. All project deliverables are subject to the intellectual property terms defined in the signed project agreement.

6. Security Responsibilities

Important: You are responsible for maintaining the security of your access credentials and the devices used to access the portal. GCS is not liable for unauthorized access resulting from compromised client credentials.

- a. Use strong, unique passwords for portal access;
- b. Do not access the portal from untrusted networks or shared public computers;
- c. Keep your browser and operating system updated;

- d. Report any suspicious activity immediately through the portal messaging system.

7. Rate Limits & Fair Use

To ensure service quality for all clients, the following limits apply:

- Message rate limits are enforced to prevent system abuse;
- File uploads are subject to per-session and per-day volume limits;
- API access (if applicable) is rate-limited per the technical documentation;
- Automated access, scraping, or bulk operations are prohibited without written authorization.

8. Enforcement

Violations of this AUP may result in:

- a. Warning notification via the portal messaging system;
- b. Temporary suspension of portal access;
- c. Permanent revocation of access privileges;
- d. Termination of the service agreement;
- e. Legal action where warranted.

GCS will make reasonable efforts to notify users of violations before taking enforcement action, except where immediate action is necessary to protect system integrity or the safety of other users.

9. Amendments

GCS may update this AUP at any time. Changes will be communicated via the Client Portal. Continued use of services after notification constitutes acceptance.
